

**I HAVE PASTED BELOW, A LETTER I SENT TO US SENATOR PATTY MURRAY,  
Who serves on the Senate's Committee for Veterans Affairs.**

**My understanding is that the NAACP has recently committed itself to VETERANS  
and our plight.**

Dear Senator Murray. Let me start by saying that I am both pleased about your ardent support for Hillary Clinton. I also appreciate your commitment to Americans MILITARY VETERANS.

More than 2 decades ago, President Bill Clinton APOLOGIZED to African Americans for the TUSKEGEE STUDY. Yet the Veterans Administration in S. E. Pennsylvania continues to ethnically profile, warehouse and exploit African Americans (primarily Homeless veterans from PHILADELPHIA) as un-informed, unwary and un-consenting HUMAN SUBJECTS—under the ruse of “ Diversity”.

I am a Veteran and a cardiology patient receiving care from the Veterans Administration. I am also a WOMAN VETERAN and I happen to be a "minority veteran"—and a life-long Democrat—perhaps up until now . . .

It is abundantly clear that even in the 21<sup>st</sup> Century, US MILITARY VETERANS (ESPECIALLY WOMEN AND OTHER UNDER-REPRESENTED MINORITY GROUPS) HAVE NO RIGHTS THAT ANY FEDERAL EMPLOYEE IS OBLIGATED OR BOUND TO RESPECT.

President Obama’s re-election in 2012 triggered increased racial hostility and terrible backlash among young neo-conservative (dominate group) staff and administrators within the Coatesville VAMC. Unfortunately, Ethnic Minority Veterans (primarily economically disadvantaged veterans of African Descent) became the surrogate target/whipping boy against whom VA employees turn their anger and rage.

**NOW, A CLINTON-APPOINTED AGING TITLE III FEDERAL JUDGE** (proudly, the first African American Woman in her position) has seemingly allowed her staff to collude with the local Assistant US Attorneys to conceal the VA's egregious conduct and to close the doors of opportunity for aggrieved veterans (victims) to be heard and to obtain justice—or even proper treatment.

Instead of prosecuting their individual fraudulent conduct, the local US Attorney is DEFENDING individual neo-conservatives whose actions undermine both the VA’s congressionally mandated mission, while also violating their code of conduct of the Executive Branch.

This baffling conduct from this administrations appointees raises the question: Is this Administration truly committed to veterans, the constitution, civil rights, racial and gender equity in ALL OF IT PROGRAMS?

The IRONY is that if Lynch, Holder, the US attorney of ED of PA, his assistant US attorney, the Minority women Federal Court Officers or even the FLOTUS and POTUS happened to be treated for a medical condition at Coatesville VAMC, THEY TOO would automatically be profiled, gaslighted, traded like property and fast-tracked into the HUMAN SUBJECTS LANE—simply by virtue of their ETHNICITY, RACE and SKIN COLOR—but mostly because the VA staff CAN do it and get away with it---because NO ONE IS PROTECTING VULNERABLE VETERAN POPULATIONS

The clear message given to government agencies and rogue government employees is that they can violate veterans, ethnic minority groups, women, critically ill patients, and other “fringe” groups—with impunity because there is little to no accountability from the courts or congress.

They VA views and treats critically ill veterans like we are detainees. And they treat those who question unethical conduct like we’re WHISTLEBLOWERS—complete with threats, intimidation, and life-threatening retaliation. I have complained for the past few years about the well-established practice at the Coatesville VA Medical Center.

The local US Attorney’s Office (appointed by President Obama under Holder) participates in the retaliation by prosecuting veterans who are wrongfully charged (retaliation) by VA Police with crimes in federal court---to chill our first amendment rights.

As much as I admire this administration, I am horribly disappointed at the actions that many of his cabinet members and appointees have taken which actually supports the neo-conservatives who hate and undermine this administration.

This type of group misconduct and violation of the constitution is counter to everything THIS administration purports to stand for and care about
